

# K-90

## NONIONIC ADJUVANT - SPREADER - ACTIVATOR FOR AGRICULTURAL SPRAYS

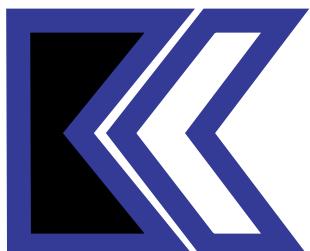

Principal Functioning Agents: Alkyl aryl polyoxyethylene glycols,  
Isopropanol, Free fatty acids  
Constituents ineffective as a spray adjuvant.....20%

### CAUTION FLAMMABLE LIQUID

MAY BE HARMFUL IF SWALLOWED    CAUSES EYE IRRITATION

Avoid contact with eyes. In case of contact, flush eyes with water for at least 15 minutes and get medical attention. If swallowed, induce vomiting by inserting finger in throat. Drink copious quantities of water and obtain medical attention.

Fresno, CA 93727

K-90 is a water-soluble product providing an easily diluted surface active agent. It is for use with herbicides, defoliants, desiccants, insecticides and fungicides to increase surface wettability, spreadability, contact activity, and penetration.

#### SUGGESTIONS FOR USE

Usage of K-90 will vary with different sprays and with method of application and water hardness conditions. Use only minimum amount necessary to achieve a smooth uniform film.

#### A. Dilute full volume sprays:

1. Insecticides, fungicides-use between 2 oz. to 8 oz. K-90 per 100 gallons of final spray mixture.

2. Herbicides, defoliants, desiccants - use between 1/2 pint to 8 pints K-90 per 100 gallons of final spray mixture.

B. Concentrate sprays - As sprays are concentrated to 2x, 10x, etc., the amount of K-90 should be increased in about the same proportion as the pesticide.

C. Aerial use - To improve pesticide coverage by air, use 1/2 to 2 pints K-90 in sufficient volume spray mix to cover.

K-90 should be added to the spray tank last with agitator running, after all other ingredients are well mixed.

K-90 spray adjuvant is compatible and safe to use with nonselective herbicides, such as MSMA, Dowpon, Dow General, Amino Triazole, Paraquat, etc., where a spray adjuvant is recommended to be used with such materials.

NOTICE: Knapp Manufacturing warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions or under abnormal conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and permanent injury.
